

PRESS RELEASE

My Twin Communication Supports Alia Mentis in its IPO Process on Euronext Growth Milan

The agency supported the deep-tech company as financial communications advisor, helping to build a clear and recognisable narrative for media, investors and financial stakeholders

Milan-Treviso, 30 June 2026 - **My Twin Communication**, an agency specialised in financial communications and investor relations, supported **Alia Mentis S.p.A.**, a deep-tech company active in the field of innovative materials, as financial communications advisor throughout its listing process, which was completed today with the “Ring the Bell” Ceremony and the official start of trading of Alia Mentis shares on **Euronext Growth Milan**, the multilateral trading facility organised and managed by **Borsa Italiana S.p.A.**, dedicated to small and medium-sized enterprises with high growth potential.

The Company's debut on Euronext Growth Milan marks the completion of a **successful IPO**: the placement generated total demand equal to approximately three times the offer, from leading Italian and international institutional investors.

My Twin Communication supported Alia Mentis at every stage of a process that enabled the Company to reach an important milestone and, at the same time, to **begin a new phase of growth** in the capital markets, translating a technological equity story into a **clear, consistent and accessible narrative for media, investors and financial stakeholders**. The objective was to enhance the Company's distinctive features and make them more immediately understandable to the market, in line with the values and objectives that have guided its development since its foundation.

“We are proud to have supported Alia Mentis in such an important milestone. In a selective market, this third IPO of the year on Euronext Growth Milan confirms the value of a distinctive and credible equity story. In its new journey as a listed company, clear, consistent and ongoing financial communication will be essential to maintaining credibility and trust with the market over time,” said **Mara Di Giorgio and Marco Messori, co-founders of My Twin Communication**.

Thanks to an intellectual property portfolio comprising trademarks, proprietary technologies and patents, as well as a rigorous corporate method rooted in experience, consolidated through processes and turned into culture when shared by people as a common criterion for action, Alia Mentis is positioned as a technology partner for leading Italian and international players operating in the automotive and motorsport, aerospace & defence, protection & safety, technical sports and high-tech industrial application sectors. The Company's operating model covers the entire value chain, from research and development through to process engineering and the in-house production of advanced composite materials.

For Alia Mentis, the listing on Euronext Growth Milan represents an essential step in strengthening internal production capacity, consolidating the development of proprietary technologies and reinforcing its positioning as a reference technology

partner for international industrial players.

In line with the Company's philosophy and objectives, in this new phase My Twin Communication will continue to support Alia Mentis in building a **structured and consistent narrative** aimed at increasing its visibility and consolidating its positioning within the international deep-tech and industrial landscape, enhancing the Company's technological profile, industrial know-how, deep-tech expertise and ability to identify and guide the development trajectories of highly complex application markets.

***My Twin Communication** is a boutique firm specialised in Financial Communications and Investor Relations, supporting listed issuers, industrial companies and institutions operating in the banking, savings and investment sectors. It develops visibility strategies targeting the financial community, strengthening dialogue with investors, analysts, journalists and stakeholders. The company supports entrepreneurs, CEOs, CFOs, as well as Investor Relations Officers and Communications & Marketing Managers, in managing information flows and market positioning, supporting extraordinary transactions, IPOs, capital increases and the management of reputation and perception. It promotes transparency, liquidity and high-quality financial communication for the benefit of all stakeholders. www.mytwincommunication.com*
